Made in the Shade

The real reason most people come to Margaret River is for the world-famous wines.

That they also discover beautiful beaches, arts and crafts and fine dining – well, that's just good luck.

Headed up by the charming Martin family since 1999, Clairault stands out as a savvy operation with quality products. The manicured gardens provide an ideal setting for the award-winning restaurant. Looking for fish and chips?

Keep looking – the cuisine served here is modern, delicious and delicately influenced by the chef's passion for Asia.
